

# ALAW Môn SOLAR FARM

## OVERVIEW

### CLIENT

Enso Energy Limited

### SECTORS

Energy

### LOCATION

Anglesey

### PLANNING AUTHORITY

Isle of Anglesey Council

### HIGHWAY AUTHORITY

Isle of Anglesey Council

### PROJECT TEAM

Barton Willmore

### PROJECT MANAGER

Robert Roughan

### PROJECT DIRECTOR

James Darrall

## PROJECT

TPA is appointed by Enso Energy Limited to support the submission of a Development of National Significance (DNS) application to the Welsh Government.

The development proposals are for a 160MW solar farm in Anglesey. The proposals include energy storage which will allow energy to be stored on site at times when grid-demand is lower and exported at times of higher demand to ensure no energy is 'lost' and help balance the National Grid. Once constructed, the Site will generate enough energy to Power 34,000 homes.

## APPROACH

The application is currently in the initial stages of the DNS process. TPA is currently developing the construction access strategy in conjunction with officers at Isle of Anglesey Council.

To support the DNS submission, TPA will also be preparing a Transport and Access ES Chapter, as well as a Construction Traffic Management Plan. This will include technical access drawings and routing plans. Once agreed, a Statement of Common Ground will be agreed with the Isle of Anglesey Council prior to the Examination.
